# Operation★Free Ride

An opportunity to ride a horse for free!

***"We all know that horses can do amazing things for families. Horses4Heroes continues to prove that point!" Horse & Rider Magazine, March 2011***

OPERATION FREE RIDE is a program that Horses 4 Heroes created to give active duty military personnel, returning combat veterans, wounded warriors and their families the opportunity to ride a horse for free! We want them to ride a horse or experience the special bond and friendship of horses!

There are participating facilities from coast to coast in US and Canada. Jericho Creek Farms & Horse Power Healing Center, located in Eagle, Wisconsin are participating facilities.

**You can register for your free ride at [www.operationfreeride.com](http://www.operationfreeride.com)**

*"There's nothing ... no bad day, no hurt feelings, no broken heart that a ride on your horse can't cure. When riding, there's no one in the world except you and your horse. Treasure the time spent in the saddle; it is the one precious place where all the world is right. There is no hate, no crime, no pain, no war, no death. It is the one time when you are completely free. Cherish that time and hope that feeling last forever." ~ Unknown*
