

We Also Offer:
Equine-Assisted Therapeutic Lessons

At Horse Power Healing Center we offer our services to individuals, who are physically, mentally, or emotionally challenged, for persons with diagnoses such as Traumatic Brain Injury, Stroke, Depression, Multiple Sclerosis, Cerebral Palsy, Down Syndrome and Autism.

HPHC lessons are organized by type of disability, age, and level of horse skills. Classes may be one-on-one or no more than three riders. Therapeutic Horse Back Riding is taking into account each student's diagnosis, and teaching the student to ride as independently as possible.

HPHC Riding lessons also include participation in appropriate pre-mounted and post-mounted activities. These include- grooming, horse handling, and horse knowledge.

For individuals who are non-riders, HPHC also offers an Equine Learning Lesson Program, where activities include grooming, horse handling and horse knowledge.

For an even more individualized experience, HPHC also offers private Equine-Assisted lessons.

Scholarships may be available for those individuals that cannot afford the entire cost of lessons. Contact us for more information.

Note: All students are required to have an initial assessment before starting lessons, to determine abilities and needs.

Rates:

Group Session (Six weekly one-hour lessons) **\$300.00**

Private Individual Riding Lesson \$65.00
Package of six lessons \$375.00

Initial Assessment: \$25.00

Horses for Hope Program

Horse Power Healing Center, Inc. (HPHC) offers the "Horses for Hope" program to children and adults who have been given a terminal diagnosis.

The "Horses for Hope" participants are able to visit the farm and meet the horses; if they are able, they can also learn to ride a horse.

Through interaction with the horses, participants are empowered to be care-givers instead of care-recipients.

There are **NO FEES** charged for the participants in the program; we feel that with all the bills and medical expenses these families already incur, this service should be free.

Contact us to schedule a visit to the farm.

Who We Are:

HPHC is a one-of-a-kind facility, where individuals and families can benefit from a wide range of horse experiences, tailored to their specific needs, by a trained team of instructors, volunteers and horses.

HPHC horses have all been through our extensive desensitizing program. The horses have been conditioned to the necessary equipment, assistive devices, and overall stimulus associated with therapeutic riding programs.

We provide the best in education, and safety for our students and volunteers.

Our Mission:

“ To provide all individuals, who are physically, mentally, or emotionally challenged, with healing empowerment through horses. Equine-oriented activities help facilitate the ability of individuals to reach their full potential by enhancing self-esteem and self-confidence.”
